3. Choose whether you would like to give input about a specific location (point) or a stretch of a road, sidewalk, or pathway (line) (Screenshot 3). If you selected the “Street (Line)” option, please look at the additional instructions mentioned in Step 4 to help you with the process.

Screenshot 3

4. You can choose the desired location by zooming into the map and selecting a location, typing in the address in the search icon, or zooming to your current location by clicking on the location icon using the icons on the left of the screen (Screenshot 4).

Note: If you selected the option of “Street (Line)”, please look at Step A on the next page. Otherwise, you may continue to Step 5.

5. Choose the type of report you would like to make (crash, near miss, hazard, and safe place), then answer the questions that follow (Screenshot 5).

Screenshot 6

6. The report encompasses up to nine questions about the incident reported; you may skip any that you wish. This step takes five to ten minutes.
7. Once you have submitted your report, you can choose to answer some questions about yourself.
